Aphasia

in 4 Volume Set

(Critical Concepts in Psychology)

Edited by **Chris Code**

Professorial Research Fellow in Psychology, College of Life and Environmental Sciences, Washington Singer Labs, University of Exeter, UK.

2017年2月出版 全4巻/2006ページ 定価 ¥254,150

Published by Routledge ISBN 9781138848566

Aphasia—from the Greek *aphatos* ('speechless')—describes impairments and disabilities in the use of language arising from, for example, strokes, trauma, tumours, surgery, or progressive brain deterioration. It includes problems with the expression and comprehension of language in speech, reading, writing, and signing.

Research in and around aphasia continues to flourish such that, even for specialist aphasiologists, it is extremely hard to keep up to date with developments. There is a real threat of laboratory-based human research, neuropsychology, computational-modelling research, and brain-imaging studies proceeding in ignorance of each other. Indeed, the sheer scale of the growth in cognitive neuroscience makes this collection especially timely and welcome; it permits ready access to the most influential and important works across the full breadth of the discipline.

The materials gathered in Volume I include explorations of the foundations of aphasiology. The major works collected in the second volume examine theoretical developments, while Volume III is organized around contemporary issues in aphasiology. The final volume makes sense of clinical issues, such as recovery, assessment, and rehabilitation.

With a full index, together with a comprehensive introduction, newly written by the editor, which places the collected material in its historical and intellectual context, *Aphasia* is an essential work of reference. For researchers and advanced students, it is a vital one-stop research and instructional resource.

Table of Contents

Volume I. Historical Foundations

Introduction to Historical Foundations

1. R. Prins and R. Bastiaanse 'The Early History of Aphasiology: From The Egyptian Surgeons (C. 1700 Bc) To Broca' *Aphasiology*, 20, 8, 2006, 762-791
2. 'Letter from Dr. F. J. Gall, to Joseph Freiherr von Retzer, upon the Functions of the Brain, in Man and Animals' in D. G. Goyder (trans.) *My Battle for Life: The Autobiography of a Phrenologist* (London, 1857)
3. C. Luzzatti and H. Whitaker 'Jean-Baptiste Bouillaud, Claude-François Lallemand, and The Role Of The Frontal Lobe: Location And Mislocation Of Language In The Early 19th Century' *Archives Neurology*, 58, 2001, 1157-1162.
4. P. Broca 'Loss of Speech, Chronic Softening and Partial Destruction of the Anterior Left Lobe of the Brain', first published in *Bulletins de la Société d'Anthropologie de Paris*, 2, 1861, 235-238, translated by Christopher Green for Classics in the History of Psychology internet resource
5. P. Broca 'Remarks on the Seat of the Faculty of Articulated Language, Following an Observation of Aphemia (Loss of Speech)', first published in *Bulletin de la Société Anatomique*, 6, 1861, 330-357, translated by Christopher Green for Classics in the History of Psychology internet resource
6. E. Berker, A. Berker and A. Smith 'Translation of Broca's 1865 Report' *Archives of Neurology*, 43, 1986, 1065-1072.
7. N. Geschwind 'Wernicke's Contribution to the Study of Aphasia' *Cortex*, 3, 1967, 449-463.
8. G. Blanken, J. Dittmann and H. Sinn 'Old Solutions to New Problems: A Contribution to Today's Relevance of Carl Wernicke's Theory of Aphasia' *Aphasiology*, 8, 3, 1994, 207-221.

9. L. Lichtheim 'On Aphasia' *Brain*, 7, 1885, 433-485.
10. Roger E. Graves 'The Legacy of the Wernicke-Lichtheim Model' *Journal of the History of Neurosciences*, 6, 1, 1997, 3-20.
11. R. De Bleser 'From Agrammatism to Paragrammatism: German Aphasiological Traditions and Grammatical Disturbances' *Cognitive Neuropsychology*, 4, 2, 1987, 187-256.
12. J. Hughlings-Jackson 'On Affections of Speech from Disease of the Brain' *Brain*, 1878, 203-222.
13. Paul Eling 'The Psycholinguistic Approach to Aphasia of Chajim Steinthal' *Aphasiology* 20, 9, 2006, 1072-1084.

Volume II. Theoretical Developments

Introduction to Theoretical Developments

14. Malcolm R. McNeil and Sheila R. Pratt 'Defining Aphasia: Some Theoretical And Clinical Implications Of Operating From A Formal Definition' *Aphasiology*, 15, 10-11, 2001, 901-911.
15. Yves Joanette and Ana Ines Ansaldi 'The Ineluctable and Interdependent Evolution of the Concepts of Language and Aphasia' *Brain and Language*, 71, 2000, 106-109
16. A. Kreindler, Lucretia Mihailescu and A. Fradis 'Speech Fluency in Aphasics' *Brain and Language* 9, 1980, 199-205.
17. Hildred Schuell and James J. Jenkins 'The Nature of Language Deficit in Aphasia' *Psychological Review*, 66, 1, 1959, 45-67.
