Political Asylum Deceptions The Culture of Suspicion

This book explores the legitimacy of political asylum applications in the US and UK through an examination of the varieties of evidence, narratives, and documentation with which they are assessed. Credibility is the central issue in determining the legitimacy of political asylum seekers, but the line between truth and lies is often elusive, partly because desperate people often have to use deception to escape persecution. The vetting process has become infused with a climate of suspicion that not only assesses the credibility of an applicant's story and differentiates between the economic migrant and the person fleeing persecution, but also attempts to determine whether an applicant[...]

The Dark Arrow of Time A Scientific Novel

This riveting scientific novel combines adventure, love, suspense, magic, pathos, and mystery in a carefully woven plot that is full of unexpected twists and turns. The author is an astrophysicist who has developed an alternative theory, which holds that traveling in time is possible. Time is, in fact, the real protagonist of the novel and of the intrigue surrounding the attempt to seize the secret of Time's other arrow, the dark arrow normally hidden from us, which points back at our past. The underlying premise is that antimatter is nothing more than common matter moving backwards in time. The justification for this interpretation has been with us for some time, "hiding in plain[...]"

T. Daley

A Play for Oil The Stories Behind the Discovery and Development of Oil and Gas

You hold in your hands the most original guide to understanding the oil and gas world – from exploration and production to the related economics and geopolitics. Tim Daley has spent years travelling the world and living as an expatriate in a quest to secure resources and meet humanity's energy demands. After several decades in the hydrocarbon business, he was keen to write a book about his experiences in an easily accessible language, enabling everyone to grasp the technicalities involved in evaluating the resources
