典型的および非典型的な発達

# Child and Adolescent Psychology

## Typical and Atypical Development

Edited by **Stephen Von Tetzchner**

2018年10月出版 全1巻 768頁

ハードカバー : 9781138823389 E105 税込予定価格 ¥22,680.

ペーパーバック : 9781138823396 E37 税込予定価格 ¥7,990.

Published by **Routledge**

本書には、各章のエッセイの質問、パワーポイントのスライド、複数の選択肢の質問など、講師や生徒が本を充実させるためのオンラインリソースが付いています。本とコンパニオンのウェブサイトは発達心理学の学生にとって非常に貴重なものです。

### 本書の内容

Child and Adolescent Psychology provides an accessible and thorough introduction to human development by integrating insights from typical and atypical development. This integration cements understanding since the same processes are involved. Knowledge about atypical development informs the understanding of typical development and knowledge about typical development is a necessary basis for understanding atypical development and working with children with disorders.

Based on international research, and informed by biological, social and cultural perspectives, the book provides explanations of developmental phenomena, with a focus on how children and adolescents at different age levels actually think, feel and act. Following a structure by topic, with chronological developments within each chapter, von Tetzchner presents and contrasts the major theoretical ideas in developmental psychology and discusses their implications for different aspects of development. He also integrates information about sensory, physical and cognitive disabilities and the main emotional and behavioral disorders of childhood and adolescence, and the developmental consequences of these disabilities and disorders.

Child and Adolescent Psychology is accompanied by online resources for lecturers and students to enhance the book, including essay questions for each chapter, Powerpoint slides and multiple-choice questions. The book and companion website will prove invaluable to Developmental Psychology students.

## 本書の目次

Chapter 1: Developmental psychology  
Chapter 2: Theoretical Perspectives  
Chapter 3: Methods of gaining knowledge about children  
Chapter 4: Child and Adolescent Disorders  
Chapter 5: Genes, evolution, heredity and environment  
Chapter 6: Stimulation and activity during fetal development  
Chapter 7: Brain Development  
Chapter 8: Perceptual development  
Chapter 9: Motor development  
Chapter 10: Theories of cognitive development  
Chapter 11: Attention, memory and executive function  
Chapter 12: Conceptual development and reasoning  
Chapter 13: Mind understanding  
Chapter 14: Intelligence  
Chapter 15: Learning and instruction  
Chapter 16: The development of communication and language
