Handbook of Parenting

3rd Edition (5 Volumes)

Edited by **Marc H. Bornstein**, National Institute of Child Health and Human Development, Bethesda, MD, USA

Published by **Routledge**

This highly anticipated third edition of the Handbook of Parenting brings together an array of field-leading experts who have worked in different ways toward understanding the many diverse aspects of parenting. Contributors to the Handbook look to the most recent research and thinking to shed light on topics every parent, professional, and policymaker wonders about. Parenting is a perennially "hot" topic. After all, everyone who has ever lived has been parented, and the vast majority of people become parents themselves. No wonder bookstores house shelves of "how-to" parenting books and magazine racks in pharmacies and airports overflow with periodicals that feature parenting advice. However, almost none of these is evidence-based. The Handbook of Parenting is. Period. Each chapter has been written to be read and absorbed in a single sitting, and includes historical considerations of the topic, a discussion of central issues and theory, a review of classical and modern research, and forecasts of future directions of theory and research. Together, the five volumes in the Handbook cover Children and Parenting, the Biology and Ecology of Parenting, Being and Becoming a Parent, Social Conditions and Applied Parenting, and the Practice of Parenting.

Vol I: Children and Parenting, 3rd Edition

2019年3月出版予定 636 ページ ハードカバー ISBN 9781138228658 ¥44,950
ソフトカバー ISBN 9781138228665 ¥18,220
