この改訂第2版の『移民学研究のハンドブック』は、国際移住の複雑さとパターンを理解するための包括的な基礎を提供する革新的な文献です。

本書の内容

This revised and expanded second edition of Routledge International Handbook of Migration Studies provides a comprehensive basis for understanding the complexity and patterns of international migration. Despite increased efforts to limit its size and consequences, migration has wide-ranging impacts upon social, environmental, economic, political and cultural life in countries of origin and settlement. Such transformations impact not only those who are migrating, but those who are left behind, as well as those who live in the areas where migrants settle.

Featuring forty-six essays written by leading international and multidisciplinary scholars, this new edition showcases evolving research and theorizing around refugees and forced migrants, new migration paths through Central Asia and the Middle East, the condition of statelessness and South to South migration. New chapters also address immigrant labor and entrepreneurship, skilled migration, ethnic succession, contract labor and informal economies. Uniquely among texts in the subject area, the Handbook provides a six-chapter compendium of methodologies for studying international migration and its impacts.

本書の内容

移住に関するヨーロッパの政治とその研究について詳しく述べられている文献です。

Crucially, this book goes beyond the study of the politics of migration in the handful of Western European countries to showcase a European approach to the study of migration politics, inclusive of tendencies in all geographical parts of Europe (including Eastern Europe, the Western Balkans, Turkey) and of influences of the European Union (EU) on countries in Europe and beyond. Each expert chapter reviews the state of the art field of studies on a given topic or question in Europe as a continent while highlighting any dimensions in scholarly debates that are uniquely European. Thematically organised, it permits analytically fruitful comparisons across various geographical entities within Europe and broadens the focus on European immigration politics and policies beyond the traditional limitations of Western European, immigrant-receiving societies.
