児童虐待に関する研究論文を集大成しました。

児童虐待論文選集・全3巻

Child Maltreatment

Three-Volume Set

SAGE Library of Health and Social Welfare

Edited by Eileen Munro & Trish Hiddleston

London School of Economics and Political Science

2015年3月出版予定 1083ページ 定価 ¥136,560

“This is a long-awaited publication on child maltreatment, including work by leading researchers in the field from various parts of the world, which thoroughly covers the causal risks, prevention and the possible responses to the issue.”

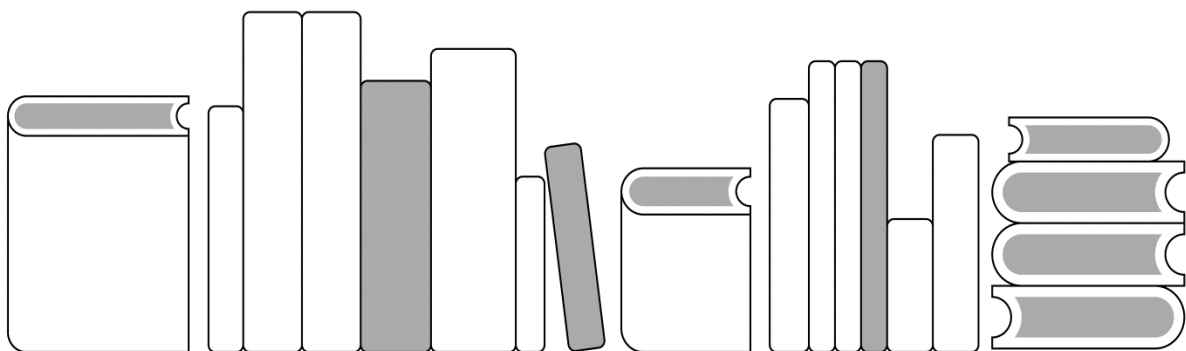

- Professor **Yoko Kato**, Japan Women's University

7. Klempe, S.H.
Kierkegaard and the Rise of Modern Psychology. June 2014, 267pp., Hardback (Transaction Pub.) ISBN 9781412853866 ¥11,390
Investigates the Danish philosopher Søren Kierkegaard's (1813-1855) contributions to our understanding of psychology. Kierkegaard's conception of psychology remains relevant for any discussion of the role of today's evolution after Kant and Kierkegaard, the author finds the discipline has followed two main paths. The dominant path follows Kant's ideals about science, while the other, much narrower trail, has its origin in Kierkegaard.

8. Lance, C.E. & R.J. Vandenberg (eds)
More Statistical and Methodological Myths and Urban Legends. Oct 2014, 368pp., Hardback (Routledge) ISBN 9780415838986 ¥30,340
(Paperback ISBN 9780415838993 ¥9,100)
This book provides an up-to-date review of commonly undertaken methodological and statistical practices that are based partially in sound scientific rationale and partially in unfounded lore. Some examples of these "methodological urban legends" are characterized by manuscript critiques such as: (a) "your self-report measures suffer from common method bias"; (b) "your item-to-subject ratios are too low"; (c) "you can't generalize these findings to the real world"; or (d) "your effect sizes are too low." In this book Lance and Vandenberg catalog these quirky but commonplace research techniques and outline proper practice.

13. Brown, T.

Confirmatory Factor Analysis for Applied Research, 2nd Edition. Dec 2014, 462pp., Hardback (Guilford) ISBN 9781462517794 ¥11,400

With its emphasis on practical and conceptual aspects, rather than mathematics or formulas, this accessible book has established itself as the go-to resource on confirmatory factor analysis (CFA). Detailed, worked-through examples drawn from psychology, management, and sociology studies illustrate the procedures, pitfalls, and extensions of CFA methodology.

14. Hoffman, L.

16. Hwang, H.

Generalized Structured Component Analysis: A Component-Based Approach to Structural Equation Modeling. Dec 2014, 336pp., Hardback (Chapman & Hall/CRC)

ISBN 9781466592940 ¥15,170

This book provides a detailed account of this novel statistical methodology and its various extensions. The authors present the theoretical underpinnings of generalized structured component analysis and demonstrate how it can be applied to various empirical examples. The book enables quantitative methodologists, applied researchers, and practitioners to grasp the basic concepts behind this new approach and apply it to their own research.

【Mplusを使った構造方程式モデリング・第2版】

17. Kelloway, E. K.

Using Mplus for Structural Equation Modeling: A Researcher's Guide, 2nd Edition. Oct 2014, 256pp., Paperback (SAGE)

ISBN 9781452291475 ¥6,970

Using a tried-and-tested, five-step process, this book provides students with a reader-friendly introduction to the major types of structural equation models implemented in the Mplus framework.

18. Longest, K.C.

Using Stata for Quantitative Analysis, 2nd Edition. Sept 2014, 280pp., Paperback (SAGE) ISBN 9781483356631 ¥8,790

This book offers a brief, but thorough introduction to analyzing data with Stata software. It can be used as a reference for any statistics or methods course across the social, behavioral, and health sciences since these fields share a relatively similar approach to quantitative analysis. In this book, the author teaches the language of Stata from an intuitive perspective, furthering students' overall retention and allowing a student with no experience in statistical software to work with data in a very short amount of time. The self-teaching style of this book enables novice Stata users to complete a basic quantitative research project from start to finish. The **Second Edition** covers the use of Stata 13 and can be used on its own or as a supplement to a research methods or statistics textbook.

生理・神経心理学

19. Ascoli, G.A.

Trees of the Brain, Roots of the Mind. May 2015, 256pp., Cloth (The MIT Pr.) ISBN 9780262028981 ¥5,700

An examination of the stunning beauty of the brain's cellular form, with many color illustrations, and a provocative claim about the mind-brain relationship.

【失語症リハビリテーションの科学】

20. Code, C. & D.B. Freed (eds)

The Science of Aphasia Rehabilitation. Sept 2014, 144pp., Hardback (Routledge)

ISBN 9781138801349 ¥25,790

This book examines the rehabilitation of language disorders in adults, presenting new research, as well as expert insights and perspectives, into this area. Chapters consider a range of topics, including a study of personalised cueing to enhance word finding, a discussion on the training of healthcare professionals, and an examination of a multi-level approach to understanding the maintenance of global coherence in aphasia.

【道徳的な脳 - 学際的視点から】

21. Decety, J. & T. Wheatley (eds)

The Moral Brain: A Multidisciplinary Perspective. March 2015, 328pp., Cloth (The MIT Pr.) ISBN 9780262028714 ¥6,650

An overview of the latest interdisciplinary research on human morality, capturing moral sensibility as a sophisticated integration of cognitive, emotional, and motivational mechanisms.

22. Hobson, A.

Psychodynamic Neurology: Dreams, Consciousness, and Virtual Reality. Oct 2014, 272pp., Paperback (CRC Pr.) ISBN 9781482260540 ¥7,880

【fMRI・第3版】

23. Huettel, S.A. et al.

Functional Magnetic Resonance Imaging, 3rd Edition. Nov 2014, 515pp., Hardback (Sinauer Associates) ISBN 9780878936274 ¥21,240

This book provides a comprehensive introduction to fMRI. The Third Edition has been extensively updated, including a discussion of the physiological basis of fMRI and coverage of ethical and methodological controversies. Examples are drawn from both seminal historical work and cutting-edge current research.

【EEG/ERP分析 - 方法と応用】

24. Kamel, N. & A.S. Malik (eds)

EEG/ERP Analysis: Methods and Applications. Oct 2014, 344pp., Hardback (CRC Pr.) ISBN 9781482224696 ¥30,040

This book explores the recent advances involved in EEG/ERP analysis for brain monitoring, details successful EEG and ERP applications, and presents the neurological aspects in a simplified way so that those with an engineering background can better design clinical instruments. It consists of 13 chapters and includes the advanced techniques used for signal enhancement, source localization, data fusion, classification, and quantitative EEG. In addition, some of the chapters are contributed by neurologists and neurosurgeons providing the clinical aspects of EEG/ERP analysis.

【壊れた脳 - 脳機能と障害】

25. Mitchell, I

Broken Brains. Nov 2014, 232pp., Paperback (Palgrave Macmillan) ISBN 9781137366832 ¥5,450

Drawing on real life examples and anecdotes from neurosurgery and neurobiology, this engaging introduction to brain function and dysfunction is ideal for those interested learning more about the brain in an accessible way. Ian Mitchell brings biological psychology to life with examples of real life applications of the theory.

【セクシュアリティの進化】

26. Shackelford, T.K. & R.D. Hansen (eds)

The Evolution of Sexuality. Oct 2014, ca.400pp., Hardcover (Springer) ISBN 9783319093833 ¥30,880

The Evolution of Sexuality collects stimulating new empirical findings and theoretical concepts regarding both familiar themes and emerging areas of interest. Following earlier titles in this series, an interdisciplinary panel of contributors examines topics specific to the whys of male and female

sex-related behavior, here ranging from biological bases for male same-sex attraction to the seemingly elusive purpose of the female orgasm. This vantage point between biology and psychology gives readers profound insights not just into human differences and similarities, but also why they continue to matter despite our vast understanding of culture and socialization. And intriguing dispatches from the humanities review sexual themes in classic works of literature and explore the role of parent-offspring conflict in the English Revolution of the seventeenth century.

【神経解剖学用語集】

27. Swanson, L.

Neuroanatomical Terminology: A Lexicon of Classical Origins and Historical Foundations. Sept 2014, 1080pp., Hardback (Oxford U.P., USA) ISBN 9780195340624 ¥23,760

This is the first complete defined vocabulary for all parts of the human nervous system that can be seen with functional imaging methods. One main part is a lexicon of standard and nonstandard terms, and another main part is a set of hierarchical nomenclature tables of standard terms.

【脳の歴史 - 石器時代から現代神経科学まで】

28. Wickens, A.P.

A History of the Brain: From Stone Age Surgery to Modern Neuroscience. Dec 2014, 400pp., Hardback (Psychology Pr.) ISBN 9781848723641 ¥30,340

(Paperback ISBN 9781848723658 ¥10,010)

A History of the Brain tells the full story of neuroscience, from antiquity to the present day. It describes how we have come to understand the biological nature of the brain, beginning in prehistoric times, and progressing to the twentieth century with the development of Modern Neuroscience. This is the first time a history of the brain has been written in a narrative way, emphasizing how our understanding of the brain and nervous system has developed over time, with the development of the disciplines of anatomy, pharmacology, physiology, psychology and neurosurgery.

【重大な脳障害によるアイデンティティの喪失】

29. Wilson, B. et al. (eds)

Identity Unknown: How Acute Brain Disease Can Destroy Knowledge of Oneself and Others. Oct 2014, 208pp., Hardback (Psychology Pr.) ISBN 9781848722842 ¥27,310

(Paperback ISBN 9781848722859 ¥6,060)

CONTENTS: **PART ONE** 1. Encephalitis 2. An introduction to visual perceptual disorders and to the agnosias 3. Theoretical Accounts of Prosopagnosia 4. The Self and Identity **PART TWO** 5. Life before the illness: Claire's account 6. Calling my husband Stephanie 7. Kissing a cauliflower 8. Together we can 9. The red group - learning to belong to my own life 10. A face is not a person 11. Strategies that have helped 12. Can you believe your eyes? Sight difficulties following encephalitis 13. 'Metallic not sour' and pieces of the jigsaw 14. Paddling through the river and stepping on stones: An Overall Summary of my Life Since Encephalitis 15. Final last thoughts

【児童の脳性視覚障害】

30. Zihl, J. & G. Dutton

Cerebral Visual Impairment in Children: Visuoceptive and Visuocognitive Disorders. Sept 2014, 300pp., Hardcover (Springer, Sien) ISBN 9783709118146 ¥23,750

CONTENTS: Introduction. Neurobiological foundations and development of visual perception. Cognitive functions and their development. Cerebral visual dysfunctions. Assessment of visual functions and dysfunctions. Intervention. Case reports. References.

動物心理学

【動物の社会的ネットワーク】

31. Krause, J. et al. (eds)

Animal Social Networks. Nov 2014, 336pp., Hardback (Oxford U.P.) ISBN 9780199679041 ¥22,760

(Paperback 9780199679058 ¥11,380)

This novel text provides an overview of the insights that network analysis has provided into major biological processes, and how it has enhanced our understanding of the social organisation of several important taxonomic groups. It brings together researchers from a wide range of disciplines with the aim of providing both an overview of the power of the network approach for understanding patterns and process in animal populations.

【犬の行動、進化、認知・第2版】

32. Miklosi, A.

Dog Behaviour, Evolution, and Cognition, 2nd Edition. Dec 2014, 416pp., Hardback (Oxford U.P., UK) ISBN 9780199646661 ¥19,720

This is the first book to collate and synthesize the recent burgeoning primary research literature on dog behaviour, evolution, and cognition. The author presents a new ecological approach to the understanding of dog behaviour, demonstrating how dogs can be the subject of rigorous and productive scientific study without the need to confine them to a laboratory environment.

【動物行動 – その概念、方法、応用】

33. Nordell, S. & T. Valone

Animal Behavior: Concepts, Methods, and Applications. 2014, 368pp., (Oxford U.P., USA) ISBN 9780199737598 ¥18,610

Animal Behavior: Concepts, Methods, and Applications uses a conceptual approach that puts the process of science and applications front and center. The text guides students through featured research examples that strongly emphasize the process of scientific inquiry. The approach is based on the growing mandate to shift science education from rote memorization to a conceptual approach that emphasizes the nature of inquiry in science.

発達・教育心理学

【愛着の形態(アインスワースの古典的名著)】

34. Ainsworth, M.D. Salter et al.

Patterns of Attachment: A Psychological Study of the Strange Situation. (Psychology Press Classic Edition) Dec 2014, 416pp., Hardback (Psychology Pr.) ISBN 9781848726819 ¥28,830

(Paperback ISBN 9781848726826 ¥10,010)

Written by the founding mother of attachment theory, *Patterns of Attachment* is a truly groundbreaking book that solidified and popularized Mary D. Salter Ainsworth's Strange Situation procedure and classification system. This long overdue Classic Edition will be introduced by Ainsworth's co-authors who will describe how *Patterns of Attachment* became a singular landmark in the field. They'll trace the significance of Ainsworth's work to the history of attachment theory and show how her contributions have influenced research on attachment across the lifespan, developmental psychopathology, cross-cultural studies, public policy and more.

【言語障害をもつ子供の書き方発達】

35. Arfe, B. et al.

Writing Development in Children with Hearing Loss, Dyslexia, or Oral Language Problems: Implications for Assessment and Instruction. Sept 2014, 384pp., Hardback (Oxford U.P., USA) ISBN 9780199827282 ¥13,290

Difficulties with writing are considered one of the most common learning problems in school children. This volume focuses on the causes and nature of writing problems in children with hearing loss, oral language problems, and dyslexia. Its goal is to provide current understandings to help guide and support writing assessment and intervention.

【児童および家族の権利擁護】

【知能ハンドブック - 進化論、歴史的観点、最新概念】

38. Goldstein, S. et al. (eds)

Handbook of Intelligence: Evolutionary Theory, Historical Perspective, and Current Concepts. Oct 2014, ca.750pp., Hardcover (Springer) ISBN 9781493915613 ¥47,510

The *Handbook of Intelligence* addresses a broad range of issues relating to our cognitive and linguistic past. It is the first full-length volume to place intelligence in an evolutionary/cultural framework, tracing the development of the human mind, exploring differences between humans and other primates, and addressing human thinking and reasoning about its own intelligence and its uses. The works of pioneering thinkers – from Plato to Darwin, Binet to Piaget, Luria to Wechsler – are referenced to illustrate major events in the evolution of theories of intelligence, leading to the current era of multiple intelligences and special education programs. In addition, it examines evolutionary concepts in areas as diverse as creativity, culture, neurocognition, emotional intelligence, and assessment.

【児童心理学／OUPの新書版】

39. Goswami, U.

Child Psychology: A Very Short Introduction. Nov 2014, 152pp., Paperback (Oxford U.P.) ISBN 9780199646593 ¥1,080

Looks at cutting-edge research about child psychology and development. Incorporates information from various areas of psychology to demonstrate how children develop.

40. Greenfield, P.M. & R.R. Cocking (eds)

Cross-Cultural Roots of Minority Child Development. (Series: Psychology Press Classic Editions) Dec 2014, 416pp., Hardcover (Psychology Pr.) ISBN 9781848724808 ¥27,310 (Paperback ISBN 9781848724815 ¥9,100)

A true classic, **Cross-Cultural Roots of Minority Child Development** will remain an essential resource for any scholar who is interested in minority child development and engages in cross-cultural research and multidisciplinary methodologies.

【母親の感受性 - アインスワースの愛着理論と応用】

41. Grossmann, K.E. et al. (eds)

Maternal Sensitivity: Mary Ainsworth's Enduring Influence on Attachment Theory, Research, and Clinical Application. Nov 2014, 256pp., Hardcover (Routledge) ISBN 9781138810716 ¥25,790

In this volume, some of the world's leading experts on infant-mother interaction, caregiver sensitivity, and infant security celebrate Mary Ainsworth's enduring influence. These thoughtful new essays focusing on maternal sensitivity are a virtual seminar on the work that established attachment theory as one of the most revolutionary contributions to modern developmental psychology and infant mental health.

【インクルーシブ特殊教育】

42. Hornby, G.

Inclusive Special Education: Evidence-Based Practices for Children with Special Needs and Disabilities. Aug 2014, 152pp., Hardcover (Springer) ISBN 9781493914821 ¥9,490

【社会的コミュニケーションの発達と障害】

43. Hwa-Froelich, D.A. (ed)

Social Communication Development and Disorders. Dec 2014, 224pp., Hardcover (Psychology Pr.) ISBN 9781848725348 ¥27,310 (Paperback ISBN 9781848725355 ¥9,100)

This book is an ideal text for a range of courses in Communication Sciences and Disorders or Speech-Language Pathology, and a must-have reference for professionals working with children with social competence or social communication problems, including speech-language pathologists (SLPs), regular and special educators, psychologists, and support personnel such as social workers, counselors, and occupational therapists.

【児童期の社会的構造と再構築・第3版】

44. James, A.

Constructing and Reconstructing Childhood: Contemporary Issues in the Sociological Study of Childhood. (Series: Routledge Education Classic Edition) Oct 2014, 278pp., Hardcover (Routledge) ISBN 9781138818781 ¥28,830

(Paperback 9781138818804 ¥8,790)

Drawing together strands of existing sociological writing about childhood and shaping them into a new paradigm, the original edition of this Routledge Classic offered a potent blend of ideas that informed, even inspired, many empirical studies of children's lives because it provided a unique lens through which to think about childhood. Featuring a collection of articles which summarised the developments in the study of childhood across the social sciences, including history, psychology, sociology, anthropology, feminist and developmental studies, scholars and professionals from developed and developing countries world-wide shared their knowledge of having worked and of working with children.

45. Kohnstamm, G.A.

Jean Piaget: Children and the Inclusion Problem, Revised Edition. Feb 2014, 162pp., Paperback (Transaction Pub.) ISBN 9781412851923 ¥5,690

This book is a revised edition of the 1967 original and includes a new introduction and epilogue. The original book was published in the Netherlands, not in the United States. Therefore it has reached only a negligible US audience and has sadly escaped the attention of many interested in Piaget's developmental theory. This challenge to Piaget's theory is an invaluable resource for cognitive, developmental, and educational psychologists.

【絵本からの学習 - 認知心理学の視点から】

46. Kümmerling-Meibauer, B. et al.

Learning from Picturebooks: Research from Cognitive Psychology, Early Literacy, and Child Development Studies. Jan 2015, 264pp., Hardback (Routledge) ISBN 9780415720793 ¥25,790

Picturebooks, understood as a series of meaningful text-picture relations, are increasingly acknowledged as an autonomous sub-genre of children's literature. Being highly complex aesthetic products, their use is deeply embedded in specific situations of joint attention between a caregiver and a child. This volume focuses on the question of what children may learn from looking at picturebooks, whether printed in a book format, created in a digital format, or self-produced by educationalists and researchers.

47. Leontiev, D.A. (ed)

Positive Psychology in Search for Meaning. Sept 2014, 128pp., Hardback (Routledge) ISBN 9781138806580 ¥25,790

48. Madrid, S. et al. (eds)

Reframing the Emotional Worlds of the Early Childhood Classroom. Nov 2014, 208pp., Hardback (Routledge) ISBN 9780415833844 ¥27,310

(Paperback ISBN 9780415833851 ¥6,670)

This volume examines the emotional world of the early childhood classroom as it affects young children (whose emotional wellbeing is crucial to successful learning), educators (for whom teaching is never a solely cognitive act), parents, and administrators. In a culture where issues such as bullying and teacher burnout comprise major challenges to student success, this book brings together diverse voices (researchers, practitioners, children, and parents) and multiple perspectives (theoretical and personal) to refocus attention on the pivotal role of emotion in schools.

49. Manor-Binyamini, I.

Language and Discourse in Special Education: Understanding Ethnographic Interdisciplinary Team Culture. Aug 2014, 142pp., Hardcover (Springer) ISBN 9783319090238 ¥23,750

This book examines the words and discourse as well as their meaning and impact on the everyday culture of a multidisciplinary team at a school for students with mental disabilities. The book examines the organizational, social, professional, and emotional experiences of team members from such disciplinary as child and school psychology, special education, therapy (e.g., occupational, speech), social work, and pediatric medicine within a special education school.

Ord, J. & T. Jeffs (eds)

Rethinking Outdoor, Experiential and Informal Education. June 2015, 224pp., Hardback (Routledge) ISBN 9780415703109 ¥28,830 (Paperback ISBN 9780415703116 ¥8,190)

【幼児の思考と理解に関する国際ハンドブック】

50. Robson, S. et al. (eds)

The Routledge International Handbook of Young Children's Thinking and Understanding. Nov 2014, 600pp., Hardback (Routledge) ISBN 9780415816427 ¥37,930

This ground-breaking handbook provides a much-needed, contemporary and authoritative reference text on young children's thinking. The different perspectives represented in the thirty-nine chapters contribute to a vibrant picture of young children, their ways of thinking and their efforts at understanding, constructing and navigating the world. The Routledge International Handbook of Young Children's Thinking and Understanding brings together commissioned pieces by a range of hand-picked influential, international authors from a variety of disciplines who share a high public profile for their specific developments in the theories of children's thinking, learning and understanding.

【学級の社会心理学 - ラウトリッジ国際ハンドブック】

51. Rubie-Davies, C. (ed)

The Routledge International Handbook of Social Psychology of the Classroom. April 2015, 500pp., Hardback (Routledge)

ISBN 9780415856966 ¥42,480

The Routledge International Handbook of Classroom Social Psychology presents the first comprehensive and integrated compilation of theory and research on topics related to the social cohesion of the classroom. Many of these topics have been studied independently, for example, motivation, self-concept, class management, class climate and teacher expectations are generally studied separately by different groups of researchers. This handbook brings the evidence from different fields in social psychological classroom research together in one place for the first time to explore how these topics relate and how each influences students and their learning.

52. Sancisi, L. & M. Edgington

Made to Measure: Developing Effective Observation, Assessment and Planning in the Early Years. Oct 2014, 88pp., Hardback (Routledge) ISBN 9781138808034 ¥28,830

(Paperback ISBN 9781138808041 ¥6,670)

Offering a fresh approach, this practical toolkit offers a complete guide to observation, planning and assessment in the early years. It clearly explains the principles of good practice in this area and provides training tools to help practitioners develop their knowledge and skills and embed these principles into their setting. The focus throughout is on helping practitioners to create their own systems for observation, planning and assessment.

54. Silverman, R. & A.G. Meyer

Developing Vocabulary and oral Language Skills in Young Children. Dec 2014, 252pp., Hardback (Guilford) ISBN 9781462518258 ¥13,490

(Paperback ISBN 9781462517886 ¥4,940)

This book presents the most effective instructional strategies for promoting vocabulary growth in the early grades, when the interdependence of word learning and oral language development is especially strong. The authors guide teachers in choosing the best materials and in fostering home-school connections, and share six key principles for building vocabulary. Included are guiding questions; text boxes connecting vocabulary to the Common Core State Standards; examples from real teachers; reproducible checklists, rubrics, and other tools; and an appendix of additional vocabulary resources.

60. Barrouillet, P. & V. Camos

Working Memory: Loss and Reconstruction. (Series: Essays in Cognitive Psychology) Sept 2014, 224pp., Hardback (Psychology Pr.)

ISBN 9781848722651 ¥28,830

(Paperback ISBN 9781848722668 ¥10,010)

The book presents a synthesis and a critical review of the past and present literature about working memory. It provides the first presentation of a new theory of working memory, the Time-Based Resource-Sharing (TBRS) model, and shows its application to several areas of cognition. The authors summarize an extensive series of studies, and place their work in a historical context. This book will be essential reading for advanced students and researchers of the psychology of memory.

61. Breyer, T. (ed)

Epistemological Dimensions of Evolutionary Psychology. Oct 2014, 256pp., Hardcover (Springer) ISBN 9781493913862 ¥23,750

As psychology and philosophy arose as answers to the

eternal question of how the mind works, evolutionary psychology has gained ground over recent years as a link between cognitive-behavioral and natural-science theories of the mind. This provocative field has also gathered a wide range of criticisms, from attributing too much autonomy to the brain to basing itself on faulty assumptions about our prehistoric past.

62. Cavallaro, D.

Synesthesia and the Arts. 2014, 277pp., Paperback (McFarland) ISBN 9780786475636 ¥7,600

This study explores the relationship between synesthesia—the experience of a sensation in one perceptual domain triggering a sensation in another perceptual domain—and the arts (including painting, photography, music and literature). Its aim is twofold: to introduce readers as yet unfamiliar with synesthesia to this intriguing phenomenon by focusing on its impact on the creation and reception of art; and to alert readers already conversant with synesthesia in its many manifestations to its potential to encourage fresh ways of approaching art, of understanding the part played by our bodies in its production and receipt and, by extension, of reassessing our position in nature as humans.

Remembering: Attributions, Processes, Control in Human Memory. (Psychology Press Festschrift Series) Sept 2014, 408pp., Hardback (Psychology Pr.) ISBN 9781848725539 ¥28,830
(Paperback ISBN 9781848725546 ¥12,130)

In the 22 chapters in this volume, many of the world's foremost memory scientists report on their cutting-edge research on the nature of human memory, with several chapters reporting new empirical studies that are being published for the first time. All the contributions are inspired by the work of Larry Jacoby on human memory, with his emphasis on episodic memory -- that is, the processes and mechanisms that enable us to remember our own past experiences. In addition, the volume reflects Jacoby's appreciation that memory enters into a wide range of psychological phenomena, including perceiving, attending, and performing.

The Innocent Eye: Why Vision Is Not a Cognitive Process. Oct 2014, 272pp., Hardback (Oxford U.P., USA) ISBN 9780199375035 ¥8,550

Presents a new way of understanding visual perception that aligns with anti-intellectualism about vision while also respecting some of the insights of constructivism. Defends a controversial argument with regard to the nature of perception, a major topic in philosophy of mind.

【知覚および記憶の認知モデル】

74. Raaijmakers, J.G.W. et al. (eds)

Cognitive Modeling in Perception and Memory: A Festschrift for Richard M. Shiffrin. Dec 2014, 288pp., Hardback (Psychology Pr.) ISBN 9780415709385 ¥24,270

The work of Richard M. Shiffrin has highly impacted the field of cognitive science, and current developments within perception and memory have been influenced by his ideas. In this volume, several key figures in the field will comment on these developments and put them in a wider perspective. Although many theories and models have been presented in recent years for various aspects of human cognition, there have not been many comparative evaluations that focus on how these models have really advanced our understanding of the underlying mechanisms. This volume will be a valuable source of information for both cognitive scientists working in the field, and researchers and students looking for a clear, accessible presentation of the key problems in cognitive science. Highlighted sections include attention and perception, memory functions and processes, knowledge representation and semantics, modelling approaches and applications.

The Oxford Handbook of Multicultural Identity.

Sept 2014, 560pp., Hardback (Oxford U.P., USA) ISBN 9780199796694 ¥33,260

Multiculturalism is a prevalent worldwide societal phenomenon. This handbook reviews cutting edge empirical and theoretical work on the psychology of multicultural identities and experiences. It addresses some important basic (e.g., measurement, socio-cognitive and neural mechanisms) and applied issues (e.g., multiculturalism in marketing and organizational science).

【ジェンダーと心理学精選論文選集・全4巻】

83. Burr, Vivien (ed)

Gender and psychology. (Series: Critical Concepts in Psychology) Sept 2014, 4 Vols/1728pp., Hardcover (Routledge) ISBN 9780415660877 ¥265,540

Women and men are still – by and large – following traditionally gendered educational and work careers. Everywhere, women, on average, earn less than men. Women also remain significantly under-represented in the top jobs. Are women and men basically different kinds of people? Are women and men basically different kinds of people? Are they 'programmed' with different natural skills and abilities, things that we might call 'masculinity' and 'femininity'? This new collection from Routledge addressed these and other urgent questions by bringing together the best foundational and cutting-edge scholarship on gender and psychology.

Biopsychosocial Assessment in Clinical Health Psychology. Dec 2014, 544pp., Hardback (Guilford) ISBN 9781462517732 ¥15,200

Filling a key need, this practical volume provides state-of-the-art approaches and tools for evaluating both health-related behaviors and psychosocial aspects of medical illness. The book begins by presenting a comprehensive biopsychosocial assessment framework. Evidence-based strategies are described for assessing such key lifestyle factors as tobacco use, alcohol and other drugs, physical activity, and social support. Behavioral, cognitive, and emotional issues associated with a range of specific medical conditions—including cancer, cardiovascular disease, diabetes, chronic pain, and others—are addressed.

119. Mason, O. & G. Claridge (eds)

Schizotypy: New Dimensions. Mar 2015, Hardback (Routledge) ISBN 9780415722032 ¥27,310

For several decades there has been an increasing move towards viewing the psychotic illnesses from a dimensional point of view, seeing them as continuous with healthy functioning. The idea, concentrating mostly on schizophrenia, has generated considerable theoretical debate as well as empirical research, conducted under the rubric of 'schizotypy'. This book will discuss the most significant current themes and new developments in this research area.

120. Miller, L.

PTSD and Forensic Psychology: Applications to Civil and Criminal Law. (SpringerBriefs in Psychology / SpringerBriefs in Behavioral Criminology) Sept 2014, ca.100pp., Softcover (Springer) ISBN 9783319090801 ¥11,870

132. Brown, J.M. (ed)
Forensic Psychology. (Series: Critical Concepts in Psychology) Nov 2014, 4 Vol3/1476pp., Hardcover (Routledge) ISBN 9780415813020 ¥25,790

As serious academic and practical thinking in and around forensic psychology continues to develop, this new four-volume collection from Routledge's acclaimed Critical Concepts in Psychology series meets the need for an authoritative reference work to make sense of a rapidly growing and ever more complex corpus of literature. Edited by a leading scholar and practitioner, the collection gathers the foundational major works together with the very best contemporary scholarship.

【社会科学者の研究への旅 - 職場における心の知能指数】

133. Chi-Sum, Wong
Research Journey of Social Scientist: The Case of Emotional Intelligence at Work. Mar 2015, 256pp., Hardback (Routledge) ISBN 9780415661515 ¥28,830

The book looks at, not only the scientific reports, but all the stories behind some of the rigorous scientific studies in the author's 16-year journey. Their choice of research designs and how the designs are suitable to provide scientific evidence to demonstrate the validity of emotional intelligence are also described. Through this book, the process of scientific enquiry and important issues concerning the emotional intelligence concept are revealed in details by vivid stories and rigorous scientific reports.

134. Hays-Thomas, R.
Managing Workplace Diversity and Inclusion: A Psychological Perspective. April 2015, 400pp., Hardback (Routledge)
 ISBN 9781848729834 ¥28,830
 (Paperback ISBN 978794269 ¥10,610)

135. Jansen, P.G. & G. Roodt (eds)
Conceptualising and Measuring Work Identity: South-African Perspectives and Findings. Sept 2014, 410pp., Hardcover (Springer)
 ISBN 9789401792417 ¥23,750

Conceptualises the phenomenon of work-based identity and includes empirical studies

Introduces a research model for explaining work-based identity

Contains a measure of work-based identity that was used in an EFA and in a CFA context

Is both informative and of practical use to practitioners, scholars and researchers

【法的判断における信念と期待】

136. McAuliff, B.D. (ed)
Beliefs and Expectations in Legal Decision Making. Sept 2014, 144pp., Hardback (Routledge) ISBN 9781138809598 ¥25,790

This volume is comprised of research on beliefs and expectancies regarding alibis, children's behaviour while testifying, eyewitness testimony, confessions, sexual assault victims, judges' decisions in child protection cases, and attorneys' beliefs about jurors' perceptions of juvenile offender culpability. Areas for future research are identified, and readers are encouraged to discover new ways that beliefs and expectancies operate in the legal system.

137. Maughan, M.

児童心理学および児童発達科学ハンドブック 第7版／全4巻

Handbook of Child Psychology and Developmental Science, 7th Edition

Edited in Chief: **Richard M. Lerner**, Tufts University

2015年3月出版予定 全4巻／約4000ページ ご予約特価 US\$ 720.00

人間の発達に関する最も基本的な参考図書が来春に改訂出版されます

The *Handbook of Child Psychology and Developmental Science*, a four-volume reference, is the most comprehensive, authoritative text in the field. First published in 1946, and now in its Seventh Edition, the *Handbook* has long been considered the definitive guide to the field of developmental science.

With contributions from the major thought leaders in their respective specialties, this four-volume set provides comprehensive coverage of developmental science, including detailed explanations of major theories and methods. This new seventh edition has been completely revised to reflect significant advances in the field, including reconceptions of theory, cultural concerns, and applications in each succinct chapter, with information presented clearly enough to provide readers of all backgrounds a quick education in the subfields of human development. Available in book, ebook, and electronic reference form, this definitive reference is a must-read for anyone involved in psychology, sociology, anthropology, and neuroscience.

CONTENTS:

Volume 1: Relational, Developmental Systems Theories and Methods.

Edited by Willis F. Overton, Temple University, and Peter C.M. Molenaar, The Pennsylvania State University

1. Introduction *Willis F. Overton and Peter C. M. Molenaar*
2. Relational Developmental Systems and Developmental Science *Willis F. Overton*
3. Dynamic Systems and Developmental Science *David C. Witherington*
4. The Dynamic Development of Thinking, Feeling, and Acting: Infancy through Adulthood *Michael F. Mascolo and Kurt W. Fischer*
5. Biology, Development, and Human Systems | *Robert Lickliter and Hunter Honeycutt*
6. Human Evolution and Development: An Ethological Perspective *Patrick Bateson*
7. Neuroscience, Embodiment, and Development *Peter J. Marshall*
8. The Development of Agency *Bryan W.*

- Sokol, Stuart Hammond, Janet Kuebli, and Leah Sweetman*
9. Dialectical Models of Socialization *Leon Kuczynski and Jan De Mol*
10. Human Development and Culture: Conceptual and Methodological Issues *Jayanthi Mistry and Ranjana Dutta*
11. Emotional Development and Consciousness *Michael Lewis*
12. Personal and Cultural Identities: Development and Persistence *Michael J. Chandler and William L. Dunlop*
13. Moral Development *Elliot Turiel*
14. Development and Self-Regulation *Megan M. McClelland, G. John Geldhof, Claire E. Cameron, and Shannon B. Wanless*
15. Developmental Psychopathology *E. Mark Cummings and Kristin Valentino*
16. Positive Youth Development: A

- Relational Developmental Systems Model *Richard M. Lerner, Jacqueline V. Lerner, Edmond Bowers, and G. John Geldhof*
17. Systems Methods for Developmental Research *Peter C. M. Molenaar and John R. Nesselroade*
18. Neuroscientific Methods with Children *Michelle de Haan*
19. Qualitative/Mixed Models *Patrick H. Tolan, Steven M. Boker, and Nancy L. Deutsch*
20. Growth Curve Modeling and Longitudinal Factor Analysis *Nilam Ram and Kevin J. Grimm*
21. Person-Oriented Methodological Approaches in Developmental Science *Alexander von Eye, Lars R. Bergman, and Chueh-An Hsieh*

Volume 2: Cognitive Processes within the Relational, Developmental System.

Edited by Lynn S. Liben, The Pennsylvania State University, and Ulrich Müller, University of Victoria

1. Introduction *Lynn S. Liben and Ulrich M. Müller*
2. Brain and Cognitive Development *Joan Stiles, Timothy T. Brown, Frank Haist, and Terry L. Jernigan*
3. Perceptual Development *Scott P. Johnson and Erin E. Hannon*
4. Motor development *Karen Adolph*
5. Attentional Development: The past, the present, and the future *Jelena Ristic and James T. Enns*
6. The Development of Symbolic Representation *Tara Callaghan and*

- John Corbit*
7. Conceptual Development *Vladimir Sloutsky*
8. Language Development *Brian MacWhinney*
9. Early Literacy *Christopher J. Lonigan*
10. Nonverbal Communication: The Hand's Role in Talking and Thinking *Susan Goldin-Meadow*
11. Development of executive function *Ulrich Müller and Kimberly Kerns*
12. Development of Reasoning *Robert B. Ricco*

13. An Adaptive View of Memory Development *Mark L. Howe*
14. The Development of Mathematical Reasoning *Terezinha Nunes and Peter Bryant*
15. Development of spatial cognition *Lynn Liben and Roger Downs*
16. The Development of Play *Angeline S. Lillard*
17. The Developmental Psychology of Time *Teresa McCormack*
18. Development of scientific thinking *Richard Lehrer and Leona Schauble*

19. Artistic Development in the Visual Arts and Music *Constance Milbrath, Gary McPherson, and Margaret Osborne*
 20. Cognitive Development through Media *Daniel R. Anderson and Heather L. Kirkorian*
 21. The Development of Social

- Understanding *Jeremy I. M. Carpendale and Charlie Lewis*
 22. Cognition in developing social identities and beliefs *Rebecca Bigler*
 23. Gender Development from a Social-Cognitive Perspective *Campbell Leaper*

24. Cognitive Development in the Context of Culture *Mary Gauvain and Susan Perez*
 25. Atypical Cognitive Development *Bruce F. Pennington*

Volume 3: Socioemotional Processes.

Edited by Michael E. Lamb, The University of Cambridge

1. Unraveling the Processes that Underlie Social, Emotional, and Personality Development: A Preliminary Survey of the Terrain *Michael E. Lamb*
 2. Measuring Socio-emotional Behavior and Development *Celia A. Brownell, Elizabeth A. Lemerise, Kevin A. Pelphrey, and Glenn I. Roisman*
 3. The Prenatal Environment and its Implications for Development: An Evolutionary *David A. Coall, Anna Callan, Thomas E. Dickins, and James S. Chisholm*
 4. Psychoneuroendocrinology of Stress: Normative Development and Individual Differences *Megan R. Gunnar, Jenalee R. Doom, and Elisa A. Esposito*
 5. Temperament and Personality *Xinyin Chen and Louis A. Schmidt*
 6. Relationships, Regulation, and Early Development *Ross A. Thompson*
 7. Resilience in the Face of Adversities *Suniya S. Luthar, Elizabeth J. Crossman, and Phillip J. Small*
 8. Socio-emotional consequences of illness and disability *Keith Crnic and Cameron Neece*

9. The Implications of Discrimination for Child and Adolescent Development *Amy K. Marks, Kida Ejese, Mary Beth McCullough, and Cynthia Garcia Coll*
 10. Race, class and ethnicity as they affect emergent adulthood *Vonnie McLoyd, Kelly M. Purtell, and Cecily R. Hardaway*
 11. Socio-emotional Development in Changing Family Contexts *Susan Golombok and Fiona Tasker*
 12. Children and the Law *Michael E. Lamb, Lindsay C. Malloy, Irit Hershkowitz, and David La Rooy*
 13. A Multilevel Perspective on Child Maltreatment *Dante Cicchetti and Sheree L. Toth*
 14. Individual Differences in Theory of Mind: A Social Perspective *Claire Hughes and Rory T. Devine*
 15. Prosocial Development *Nancy Eisenberg, Tracy L. Spinrad, & Ariel Knafo*
 16. Development of Achievement Motivation and Engagement *Allan Wigfield, Jacquelynne S. Eccles, Jennifer Fredricks, Sandra Simpkins, Robert*

- Roeser, and Ulrich Schiefele*
 17. Morality: Origins and Development *Melanie Killen and Judith G. Smetana*
 18. Conceptualizing the Self: Contributions of Normative Human Processes, Diverse Contexts and Opportunity *Margaret Beale Spencer, Dena Phillips Swanson, and Vinay Harpalani*
 19. Aggressive and Violent Behavior *Manuel Eisner and Tina Malti*
 20. Gendered development *Melissa Hines*
 21. The Development of Sexuality *Lisa M. Diamond, Susan B. Bonner, and Janna A. Dickenson*
 22. Friendships, Romantic Relationships, and Other Dyadic Peer Relationships in Childhood and Adolescence: A Unified Relational Perspective *Wyndol Furman and Amanda J. Rose*
 23. The Nature and Functions of Religious and Spiritual Development in Childhood and Adolescence *Pamela Ebstyne King and Chris J. Boyatzis*

Volume 4: Ecological Settings and Processes.

Edited by Marc H. Bornstein, National Institute of Health, and Tama Leventhal, Tufts University

1. Children in Bioecological Landscapes of Development *Marc H. Bornstein and Tama Leventhal*
 2. Human Development in Time and Place *Glen H. Elder, Jr., Michael J. Shanahan, and Julia A. Jennings*
 3. Children and their Parents *Marc H. Bornstein*
 4. Children in Diverse Families *Lawrence Ganong, Marilyn Coleman, and Luke Russell*
 5. Children in Peer Groups *Kenneth H. Rubin, William M. Bukowski, and Julie Bowker*
 6. Early Child Care and Education *Margaret Burchinal, Katherine Magnuson, Douglas Powell, and Sandra Soliday Hong*
 7. Children at School *Robert Crosnoe and April D. Benner*

8. Children's Organized Activities *Deborah Lowe Vandell, Reed W. Larson, Joseph L. Mahoney, and Tyler W. Watts*
 9. Children at Work *Jeremy Staff, Arnaldo Mont'Alvao, and Jeylan T. Mortimer*
 10. Children and Digital Media *Sandra L. Calvert*
 11. Children in Diverse Social Contexts *Velma McBride Murry, Nancy E. Hill, Dawn Witherspoon, Cady Berkel, and Deborah Bartz*
 12. Children's Housing and Physical Environments *Robert H. Bradley*
 13. Children in Neighborhoods *Tama Leventhal, Véronique Dupéré, and Elizabeth Shuey*
 14. Children and Socioeconomic Status *Greg J. Duncan, and Katherine Magnuson, and Elizabeth Votruba-Drzal*

15. Children in Medical Settings *Barry Zuckerman and Robert D. Keder*
 16. Children and the Law *Elizabeth Cauffman, Elizabeth Shulman, Jordan Bechtold, and Laurence Steinberg*
 17. Children and Government *Kenneth A. Dodge and Ron Haskins*
 18. Children in War and Disaster *Ann S. Masten, Angela J. Narayan, Wendy K. Silverman, and Joy D. Osofsky*
 19. Children and Cultural Context *Jacqueline J. Goodnow and Jeanette A. Lawrence*
 20. Children in History *Peter N. Stearns*
 21. Assessing Children from a Bioecological Perspective *Theodore D. Wachs*
